

Catalyst Power's One-Stop Shop

For great savings and a clean power supply.

Save Time. Save Money. Save the Planet. Take your pick or have all of them with Catalyst Power's suite of energy supply options tailored for C&I businesses.

Connected Microgrid®

A Catalyst Power-owned and operated solar solution that offers direct on-site power generation.

Battery Storage

An energy storage installation that provides sustainable backup generation and cost reduction.

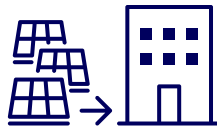

Rooftop Leasing

Lease your roof to Catalyst Power - spread solar, earn cash!

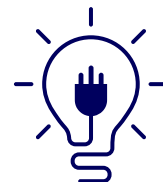

Demand Response

A paid opportunity for customers to reduce their electricity use (scheduled, of course!).

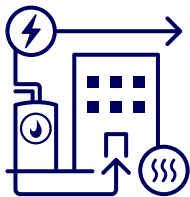

Community Solar

Enjoy up to 10% off your monthly energy bill. It's that simple.

Commercial Electricity and Gas

Take control of how you power your business with our custom-priced energy products.

Cogeneration

Carbon reduction through efficient energy production and heat use.

EV Chargers

For employees, customers, or fleets, EV chargers are available that suit any need.
